

Sanjeev Kumar Pandit

Dhanbad, Jharkhand, India | +91-9264144666 | sanjeevkupan18@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Computer Science undergraduate with hands-on experience in full-stack web development using JavaScript, Node.js, and React, and in data analytics using Python and SQL. Skilled in building scalable web applications, developing RESTful APIs, integrating SQL/NoSQL databases, and deriving insights from data through visualization. Experienced in incorporating AI-powered features into applications, with knowledge of cloud deployment and modern development practices.

TECHNICAL SKILLS

- **Languages:** Python, Java, C, JavaScript (ES6+)
- **Frontend:** HTML5, CSS3, React.js, Tailwind CSS, GSAP
- **Backend:** Node.js, Express.js, REST API Design, JWT Authentication
- **Data Analytics:** Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, Tableau
- **Databases & Cloud:** MongoDB, MySQL, Firebase Firestore, Google Cloud Platform (GCP), Firebase
- **Tools & Concepts:** Git, Github, VS Code, Postman, OOP, MVC Architecture, RESTful APIs, Data Structures & Algorithms

INTERNSHIP EXPERIENCE

Web Development Intern

Sep 2025 – Oct 2025

ApexPlanet Software Pvt. Ltd.

Remote

- Built a fully responsive e-commerce website using HTML5, CSS3, and JavaScript with product listings and a dynamic checkout interface.
- Designed a futuristic portfolio website with animated UI components and mobile-first responsive layouts; delivered all five tasks on time with production-ready code.

PROJECTS

Student Depression Dataset Analysis

[GitHub](#)

MySQL, Tableau

- Cleaned and standardized a student depression dataset using MySQL, creating age groups and preparing data for analysis.
- Built an interactive Tableau dashboard exploring academic pressure, financial stress, sleep, and study habits vs. depression.
- Analyzed key mental health patterns and presented findings through visual storytelling, identifying major well-being factors.

GateGuruAI

[Live](#) | [GitHub](#)

MERN Stack, Web Speech API, REST APIs

- Built an AI-powered voice assistant using the MERN stack to guide GATE aspirants with syllabus, weightage, and cutoff trends via spoken commands.
- Integrated the Web Speech API for real-time speech recognition and text-to-speech, enabling hands-free interaction.
- Designed RESTful APIs with Express.js and MongoDB to process voice queries and deliver low-latency AI responses.

DailyFlow

[Live](#) | [GitHub](#)

React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Zustand

- Developed a full-stack productivity tracker with task categories, priorities, reordering, and JWT-based authentication.
- Built an interactive analytics system with performance scoring, streak tracking, charts, heatmaps, and a Pomodoro timer.

EDUCATION

Bengal College of Engineering and Technology

2023 – 2027

B.Tech in Computer Science and Technology | CGPA: 8.8 / 10.0 (Ongoing)

Durgapur, West Bengal

CERTIFICATIONS

- **Google GenAI Study Jam Cohort 2** – Google (2024) | Generative AI fundamentals, Vertex AI, prompt engineering

ACHIEVEMENTS & LEADERSHIP

- **GATE 2026 Qualified:** Secured AIR-21041 in Computer Science on the first attempt.
- **College Hackathon Winner:** Secured 1st place among 30+ competing teams.
- **Operation Debug Winner:** Ranked 1st in inter-college debugging competition testing problem-solving and code optimization.
- **Organizer, Robonixx:** Led event planning for the annual robotics club fest, coordinating 12 volunteers and 200+ participants.

EXTRA-CURRICULAR ACTIVITIES

- Solved 50+ algorithmic problems on LeetCode and GeeksForGeeks; strong grasp of arrays, linked lists, trees, and dynamic programming.
- Contributing to open-source repositories on GitHub; authored detailed README documentation improving project discoverability.
- Mentored 10+ junior students in HTML, CSS, and JavaScript during college coding bootcamp sessions.
